EXPERIENCE

IT Service Desk Technician II December 2025 – Present

Community Choice Financial | Columbus, OH

- Deliver Tier I/II support for hardware, software, and connectivity issues, documenting symptoms, steps taken, and resolution in DeskPro so issues can be handed off and reviewed.
- Manage user accounts in Active Directory/Entra and support Microsoft 365.
- Troubleshoot VPN and remote-access problems and escalate suspected security incidents through the established process.
- Ranked in the top 5 technicians on call quality and resolution rate, with 100% positive user feedback.

Elementary School Teacher August 2021 – August 2024

Coolville Elementary School | Coolville, OH

- Designed and delivered recurring instruction to groups of up to 20, tracked completion, and adjusted content based on results.
- Coordinated schedules and deliverables with internal staff and 5 external partner organizations so multi-site projects landed on time.

TECHNICAL SKILLS

Access and identity: Active Directory · Microsoft 365 · MFA and password-reset support with Entra · VPN troubleshooting

Security support: Security-incident escalation · Ticket documentation suitable for handoff · User-facing security questions

Networking: TCP/IP, DNS, DHCP, subnetting · LAN/WAN troubleshooting · Wireless (802.11) · ping, traceroute, netstat · Wireshark (lab use)

Governance concepts (certification study, not job duty): Policy Writing · Risk Register Creation · Security policy awareness · NIST CSF 2.0 framework · Security awareness principles
